

The Covid-19 times has brought many challenges and questions especially into educational and schooling process. From 2021 till 2023 Liepaja school N.7 participated in the international project together with 7 partners from Germany, Sweden, Estonia, Lithuania, Belgium, Irland and Slovakia.

“The common goal of the project work in 3K & 3M is the sifting of already existing and the creation and presentation of new creative approaches to digitization.”

During the project partners not only shared their experience of schooling “online”, but also created digital material for such subjects as art, music, literature and history. Moreover, the list with guidance of available and suitable for teacher and student was summarized.

For further information on the project visit the website 3k3m.westfaelisches-forum.de
